

# MazeBolt Partner Program

## A Collaborative Approach to Continuous DDoS Vulnerability Management

MazeBolt is committed to cultivating and supporting an ecosystem of trusted partners who are valued members of the extended MazeBolt team. We aim to generate new business opportunities through close collaboration. As our partner, we work together with you to:

Offer a patented, game-changing solution for DDoS prevention

Enable customers to avoid damaging DDoS attacks

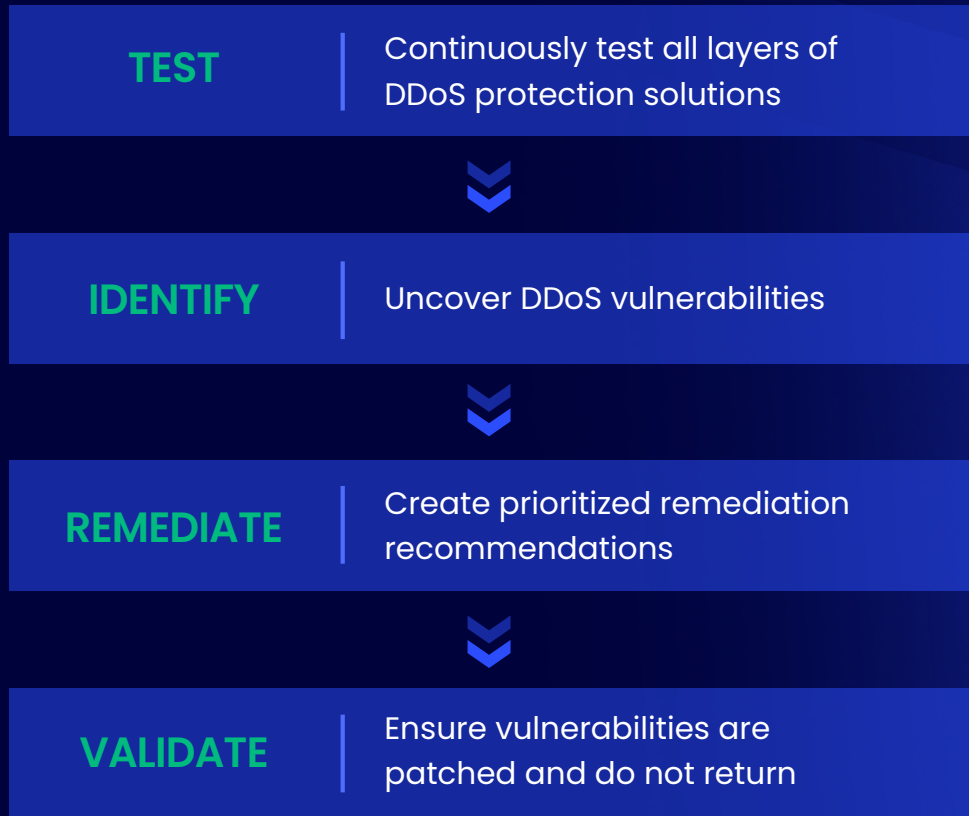

Introduce new revenue streams

## Complete Visibility into the DDoS Attack Surface

The only way for customers to avoid damaging DDoS attacks is to eliminate vulnerabilities in DDoS protection solutions.

For enterprises with critical, online services, MazeBolt RADAR™ is the only continuous DDoS Vulnerability Management solution that runs on live production services – identifying misconfigurations and vulnerabilities in DDoS protection solutions that can be exploited to cause downtime.

With MazeBolt RADAR, customers can:

## Key Benefits

MazeBolt RADAR helps you create new upsell opportunities and improve retention rates by providing:

- ✔ Better ROI on existing DDoS solution deployments
- ✔ Automated DDoS protection without downtime and SLAs
- ✔ Coverage of the full DDoS attack surface
- ✔ Detailed reports meeting SEC and DORA requirements
- ✔ Extended DDoS protection solution bundles
- ✔ Automated DDoS protection without downtime or costly SLAs
- ✔ Streamlined DDoS vulnerability remediation processes
- ✔ Diversified services

# Partnering for Success

At MazeBolt, we work closely with our partners, providing support and services that include:

## About MazeBolt

MazeBolt RADAR is a patented DDoS Vulnerability Management solution. Using thousands of non-disruptive DDoS attack simulations and without affecting online services, it can identify and enable the remediation of vulnerabilities in deployed DDoS defenses. RADAR enables organizations and governments to maintain the uninterrupted business continuity of online services. Read more at [www.mazebolt.com](http://www.mazebolt.com)
